## SIGNS OF WAR

Again Reported From Mukden and Port Arthur.

Both Sides Have Been Reinforced and Rainy Season is Over.

St. Petersburg continues without confirmation of the report that the right wing of the Japanese army is advancing north of Mukden, and the statement is therefore not credited at the Russian capital. Gen. Sakharoff reports that there was no fighting in the vicinity of Mukden Friday or Saturday, but notes the arrival of reinforcements for the Japanese along the whole line of the Japanese front. The interval of quiet has afforded Gen. Kuropatkin opportunity to strengthen his defenses and he has received large reinforcements since his retreat to Mukden. There are indications of a revival of the struggle for the possession of Port Arthur.

### Ammunition and Food.

The stories in circulation concerning the shortage of ammunition and provisions at Port Arthur are not true, says a dispatch. There is an abundance of ammunition for both large and small arms and plenty of preserved food. The use of Chinese shells was merely a saving measure.

"I left Lieut. Gen. Stossel in the best of spirits. He is encouraged by the heroic example set by the wounded, of whom 5,000 out of the original 8,000 in hospitals, have returned to the front."

### RAN AWAY

Three Russian War Vessels Left Vladivostok For Safety.

San Francisco, Sept. 18.—The most sensational news in connection with the Russian cruiser leaked out today when it was learned from an authoritative source that the Lena made a long voyage across the Pacific in company with the Korea and another cruiser, and that the vessels are now cruising off the coast.

According to this report, which evidently comes from some of the crew of the Lena, she was sent into San Francisco harbor to test American strictness in interpreting neutrality laws. If the United States had permitted the Lena to refit here, then the other two cruisers would have appeared and claimed the same privilege.

The Korea has been sighted off Vancouver, and the other cruiser is somewhere in the great triangle between here and Cape Flattery.

### GILL EDWARDS

Pitched in the Last Game of the Season.

The last game of the base ball season was played on the local diamond Friday, between the K. I. T. Browns and a local Picked nine. The teams lined up as follows:

Hopkinsville. Picked nine.  
Meyers 1 b. Simms 1 b.  
Marre 2 b. Elliott 2 b.  
Blackburn s. s. Winfree s. s.  
Morris 3 b. Hadden 3 b.  
Brady 1 f. Evans 1 f.  
Maender c. f. S. Morris c. f.  
Bomar r. f. Smith r. f.  
Ketter c. G. Morris c.  
Pettifer p. Gill Edwards p.

Edwards, the Hopkinsville boy, who was with Decatur, Ill., this season, pitched a good game, but his support was in amateur fashion and the game was of course one-sided. Edwards struck out seven men and walked four, two of them being hit by pitched balls. Pettifer struck out four and walked one. The score was 8 to 0 in favor of the Browns. The gate receipts were \$46, of which the K. I. T. team got 70 per cent.

## DIED OF FLUX.

George Catlett, of Eddyville Passes Away.

Proprietor of Mineral Mound Farm and a Prominent Plan—Well Known In Paducah.

George Catlett, one of the most prominent men of Lyon county, and well known in Paducah, died this morning at 3 o'clock at his home, "Mineral Mound Farm," between Eddyville and Kuttawa, of flux. Mr. Catlett had been ill only five days, and his death will come as a shock to his Paducah friends, who did not know of his illness.

Mr. Catlett was about 43 years of age. He was clerk of the Eddyville branch penitentiary and president of the Lyon County Fair association. He was also an extensive farmer, being the owner of Mineral Mound Farm, which formerly belonged to Hon. Willis B. Machen, a United States Senator from Kentucky. It is a beautiful place, situated on a high hill, and is familiar to many Paducah people, since it has been a summer resort for several seasons for people from this city. It is near the mineral springs at Kuttawa, and is an ideal home for the summer.

Mr. Catlett left a wife, who was Miss Powell, of Princeton, a daughter of Governor Powell, and two sons and one daughter. He was a very popular man and his death will be the cause of sorrow to many.

### NEW TRAINS

On L. & N. and Important Change in Time Card.

The heavy passenger traffic over the St. Louis division of the L. & N. has necessitated the installation of two new trains which are now in service.

The two new trains are known as Nos. 96 and 97. No. 96, North bound, will pass Hopkinsville at 9:50 p. m., and No. 97, South bound, will pass here at 5:15 a. m. Some changes in the schedule of other trains have also been made. The St. Louis fast mail, which formerly passed Hopkinsville, North bound, at 9:45 a. m., now departs at 10:10 a. m., and the accommodation arrives here at 7:55 p. m., fifty minutes earlier than formerly. The stop of thirty minutes at Guthrie for supper and Louisville passengers for this city and points between here and Guthrie has been discontinued. A stop of only five minutes is now made by this train. Passengers from Louisville will catch No. 96, one of the new trains, for this place. Other trains on the division will leave here as usual.

### CLAIMED BY DEATH.

Mrs. Julia H. Wallace Dies After Long Illness.

Mrs. Julia Wallace, daughter of the late Albert Wallace, died yesterday morning, at 3:30 o'clock, at the home of her brother, Mr. H. D. Wallace, on South Main street. She had been ill for several weeks with fever, complicated with heart trouble. Death came to her peacefully and she passed away with Christian resignation. She was a member of the Episcopal church and her funeral services will be held at that church this morning at ten o'clock.

She leaves three brothers, Messrs. Alfred H. Wallace and Henry D. Wallace and Dr. Howe H. Wallace. A large circle of friends mourn the loss of a lady noted for her exemplary Christian character and many good deeds.

### With Mrs. Keegan.

Mrs. Sallie McDaniel Richards will be with Mrs. Keegan this season and would be glad to have all her friends call on her.

## Ophthalmoscope and Retinoscope - Combined.

An up-to-date instrument for the diagnosis of the pathological condition of the interior of the eye without the use of a dark room or mydriatics to dilate the pupil. By its use all errors of refraction are detected and measured to an absolute certainty, without asking the patient any questions—thereby leaving the operator independent of the intelligence of the patient. (Great for children). It is the latest and most wonderful production of optical science. By its use the retina (veins and arteries), is seen as clearly as the patient's face. This is a costly instrument, but as I have been always deeply interested, and made a specialty of examining and fitting of glasses to the eye. I have kept up-to-date with the latest and best methods and instruments and feel that the best is none too good for my patrons. They may rest assured that they will get the latest and best service obtainable anywhere—derived from long years of practical experience with up-to-date appliances and for the least money.

Respectfully,

### FINCH AND MOSELEY

Cases Set for Fifth Day of Circuit Court.

The docket for the fall term of the Christian circuit court has been completed. There are about four hundred cases to be called. The murder case of Laura Bruen and others is set for the third day of the term. The cases of Charles Finch and Ed. Moseley, the two remaining negroes to be tried for the murder of the unknown man near Pembroke last November, are set for the fifth day of the term. Finch was given a death sentence at the first trial, but was granted a new hearing. He is in jail here. Moseley is out on bond.

There are a number of divorce suits to be tried at this term, which begins Monday, September 26. The session will last six weeks.

### THREE CONVICTED.

One Defendant Paid Up and Two Will Work.

Wallace Kay, col., was tried before Judge Knight Saturday on a charge of vagrancy and sent to the work house for forty days. Yesterday Minnie Sneed, col., was fined \$5 and costs for breach of the peace. The amount was paid. Alex. Hobson, col., was also sentenced to the work house for six days for using profane language.

### BROKE HER ARM.

Mrs. Judge Brown Victim of Very Painful Accident.

The wife of Judge M. D. Brown, of Madisonville, was the victim of a very painful injury a few days ago. She was enroute home from New York City and started to go through the aisle of a coach, when the car gave a sudden lurch, throwing her forward on her face and breaking one of her arm at the elbow. She was brought to Clifton Forge, where she received surgical aid, and she was able to resume her journey the next day. The injury, it is feared, will be a permanent one. Mrs. Brown had been visiting relatives in New York for several weeks.

### MUSIC AT MR. ADCOCK'S.

Cerulean Band Spends Few Days in the Country.

The Cerulean Springs band which furnished music at the hotel during the summer season, left Friday for this city. The members of the organization went from here to Mr. W. E. Adcock's, near Church Hill, to spend a few days before going to their home in Cincinnati.

Miss Bessie Roberts, a prominent young woman of Annisston, Ala., who was found badly beaten under a vacant house, died of her injuries. The case is mysterious and an official investigation is being made.

### To the Public.

About two years ago a new grocery store opened up in the Odd Fellow's building, under the name of M. E. Edmundson, with the choicest groceries, fruits and vegetables. We have been able, by liberal patronage of appreciative customers to make both ends meet. To them we return our thanks and promise to do our very best in the future to retain their confidence.

The permanent success of any business depends upon the confidence and good opinion of the public. No business can succeed that makes dissatisfied customers. We work and plan to give all goods that we sell genuine satisfaction in quality and price.

Now, just a word to those who voluntarily promised us at least a share of their patronage. While we have been somewhat disappointed in not having the pleasure of adding your names to our list of customers, we are still anxious to secure your grocery patronage. This true stock is small, but it is always good and is kept up-to-date, because we order fresh groceries every week to replace reduced stock. Come in and inspect our goods and our mode of doing business, and if you are satisfied we will certainly appreciate your patronage.

We also extend a cordial invitation to our country friends, many of whom perhaps will learn for the first time, on seeing this advertisement, that we are in the grocery business. Give us a trial and we will guarantee to please you.

Fair prices, pure groceries, courteous treatment, straight-forward dealing and prompt delivery are the plan we have adopted for this store. Phone us—either phone—and we will gladly supply your wants.

Tom Edmundson can always be found behind the counter ready to wait on the trade. Claud Sisk, clerk, would be glad to have all his friends call also.

M. E. EDMUNDSON

### NOTICE!

The people of Christian county, Ky., will take notice that the Fiscal Court of said county will meet at their usual and customary place of meeting, in the city of Hopkinsville, county of Christian and state of Kentucky, on Tuesday the 18th day of October, 1904, for the purpose of issuing new county refunding bonds to be sold for the purpose of obtaining money with which to pay off outstanding bonds, against said county, of issue July 1st, 1897, amounting to \$81,000, and which said bonds were issued to refund then existing railroad bonded debt of \$100,000 and which said original bonds were of date July 1st, 1897. The terms and conditions of said new bonds will be fixed and determined by said Fiscal Court, and said time and place.

### GORMAN WILL ASSIST

Committee in the management of the campaign.

Washington, D. C., Sept. 16.—It is reported from apparently reliable sources that at the conference which closed in New York last night between Judge Parker, Senators Davis, Gorman, Shoberg and Ryan, it was decided to place Senator Gorman in a position that he could assist the committee in carrying on the campaign.

Just as "Advisor,"

New York, Sept. 16.—Judge Parker's reception of a letter at his apartment at the Hotel Astor is proceeding today in the same manner as yesterday. Few persons admitted to the apartment on the fifth floor passed through the hotel office. Those who admitted conferring with the candidate or were acknowledged to the press by Private Secretary McCausland were Chas. F. Murphy, the Tammany leader; former Senator David B. Hill, Senator Arthur P. Gorman, Representative Wm. Sulzer and John B. McDonald, of New York.

A representative of the Associated Press was received by Judge Parker, who said that Senator Gorman had consented to take an important place in the management of the campaign, and that his decision was at the request of National Chairman Taggart, as well as all other campaign managers. He said that Taggart would not be supplanted or superseded in any way, and that Senator Gorman would not be connected with the details of the campaign management. Judge Parker said Senator Gorman would act in an advisory capacity only, and would remain in New York practically all the time from now until election.

### ODDITIES IN CIGARETTES.

Fads and Fancies of Young Men Who Prefer to Roll Their Own Smokes.

"The expression, 'burning money,' can be used literally in my business," said the man in brown as he laid an oblong box beside him in the cafe. "I'll guarantee I see more money go in to smoke than any man in this crowd."

They all grinned, because he was an office-toilet salesman of cigars for an exclusive firm, says the New York Sun.

"We do not pretend to cater to cheap trade, and among our customers are men who really know what good tobacco is and smoke it with the solid satisfaction of an epicure. But lots of young fellows know nothing about tobacco and go in for fads."

"For instance, in this box are some cigarettes which we have just made to order for a very young man. They are very small, good for just two or three whiffs, and the paper in which they are wrapped is stamped with the owner's crest in the enamel colorings, with a die as small as that used on a girl's most delicate stationery. The box in which he will keep them in his apartments is to be of glass, silver mounted, and will also have his crest on the top."

"Then we have another custom who goes to the other extreme. His cigarettes, made to order, are long man. They are very small, good for just two or three whiffs, and the paper in which they are wrapped is stamped with the owner's crest in the enamel colorings, with a die as small as that used on a girl's most delicate stationery. The box in which he will keep them in his apartments is to be of glass, silver mounted, and will also have his crest on the top."

"Still a third man has his cigarette paper stamped with his own name in his own handwriting. We had a die made for his autograph and this is engraved on the paper in plain black."

"This desire for monogrammed or crested cigarette paper has become so common that young fellows who prefer to make up their own cigarettes get the paper from an already stamped. Fraternity men, members of clubs, particularly the yacht clubs, and firms all have names, crests or monograms on cigarette paper."

"We make a lot of this special cigarette paper for ladies. You would be surprised at the number of men who order cigars and cigarettes for themselves and then a second order for their wives or women friends. These cigarettes, too, are made to order, and are of course the lighter, and of course the paper is stamped. We often keep his hand and wife's dies side by side. Women seldom order for themselves, however."

"On the other hand, we have many customers who smoke good tobacco for sheer love of it. I have one customer who orders 100 cigars at \$1.50 each with all the regularity of clock work. He smokes just one of those cigars a day, because his doctor has forbidden further indulgence. We make him an especially long cigar, and he says that by careful smoking he can get an hour and a half's solid comfort out of it."

### COST OF CAMPAIGN TRAIN.

Vote Hunters Who Travel by Rail Must Have Plenty of Money for Expenses.

The cost of campaigning by special train is not small, says the Chicago Chronicle. A completely comfortable campaign train must have a private car for the use of the man who is doing the brunt of the work and his secretaries and assistant speakers. Then there must be another car for the reporters of the press associations, the reporters of the particular news, papers of the states through which the train is passing and for the campaign committees of the state. There must be a dining car. Man may live by tinned goods alone for a day or two, but a buffet car trip of more than two days is simply murder. The Pullman company charges from \$30 to \$50 a day for the use of its cars. Most railroads have a special car for a regular train provided 17 full fares are paid; most railroads charge \$1 a mile for running a special train. The commissary department costs \$150, more or less, a day. Speakers who are not candidates receive from \$25 to \$100 a day for their services. Frequently the entire company of passengers goes to a hotel in a city where there is an over-night stop; in some cases the national committee pays the landlord, at other times the bills are paid by the state or the city committee.

### Commissioner's Sale.

Christian Circuit Court, Kentucky. Charles F. Jarrett & wife Against Susan A. Jarrett's Trustee.

By virtue of a judgment and ordered sale of the Christian Circuit Court rendered at the February term thereof, 1904, in the above cause, I shall proceed to offer for sale at the court house door in Hopkinsville, Ky., to the highest and best bidder, at public auction, on Monday, the 2nd day of October, 1904, between the hours of 11 a. m. and 1 p. m. (being county court day) upon a credit of one and two years, the following described property to-wit:

A certain tract or parcel of land, containing 220 acres, more or less, and situated on the north side of the Canton pike in the southwestern portion of Christian county, Ky., and about 7 miles from the city of Hopkinsville, and bounded as follows to-wit:

Beginning at a stake in the middle of the Canton pike, near the east edge of a hedge, corner of said C. F. Jarrett, formerly corner of Bradley McComb; thence N. 84° W. 20 1/2 poles to a stake in Green line; thence with said line N. 61° W. 14 1/2 poles to a stake in line of a survey said Green purchased of Hart; thence with said line S. 2° W. 27 poles to a stake, with two black jack pointers, Green's corner; thence, with another of his lines S. 10° W. 45 poles to a stake in the middle of the Canton road, corner to No. 1; thence with the middle of said road, in an easterly direction to the beginning; and being all that portion of a tract of land of 339 acres situated on the north side of the Canton pike, which said 339 acres was conveyed to said Susan A. Jarrett's Trustee, by John W. Campbell, commissioner, by a deed of record in proper office. Said land is sold for the purpose of re-investment.

For the purchase price, the purchaser must execute bond with approved surety or sureties, bearing legal interest from the day of sale until paid and having the bond and off of a replevin bond. Bidders can be prepared to comply promptly with these terms.

DOUGLAS BELL,

Master Commissioner.

### Killed a Negro.

C. Crossland, son of Hon. Sam Crossland, the well known Mayfield lawyer, shot and killed a negro at Wickliffe, Ky., last Saturday night. Crossland had gone out in company with an officer, to a neo-festival to make an arrest. George Henness, a negro, drew a pistol on Crossland, who shot and killed him.—Cadiz Record.

### Stock Law For Cadiz.

At a meeting of the city council last Friday night the city attorney was directed to draw an ordinance and present it at the next monthly meeting of the council, submitting to the voters of the town the proposition whether stock shall be permitted to run at large upon the streets of Cadiz.—Record.

According to official figures, the Japanese losses in the battle of Liao Yang were 17,500, while the Russian losses were 50,000.

At New York the local agent of the London River Plate Bank announce a shipment of \$500,000 in gold to Buenos Ayres.

Gen. Sassulitch, with a force of 3,000 Russian soldiers, had been captured by the Japanese in the vicinity of Mukden. Gen. Sassulitch was severely wounded.

Nearly 5,000 of the 12,000 former stock yard employees who applied for work were taken back. A large number of nonunion men failed to report for work.

The dancing school teachers in a national convention at St. Louis decided to discourage the "two step" and so far as possible relegate it to the rear.

### AT GUTHRIE

The Tobacco Planters Will Meet Sept. 24.

Plan is to Organize The Farmers to Fight the Tobacco Trust.

The most important event in the history of tobacco planting is near at hand. The event will be the gathering of the planters at Guthrie, Ky., Saturday, Sept. 24, 1904, for the purpose of organizing them selves as a protection against the low prices.

We had a clear demonstration, on the part of the tobacco trust and its confederates, in the way they bought the crop that grew in 1903, of how low they can buy. Enough of a thing is enough to practical men.

The undoubted and undeniable fact that last year's crop was bought below the cost of production fully satisfies our planters that the price of tobacco at their barn doors was low enough.

Hence, we will meet and form the Tobacco Planters' Protective Association at the appointed day mentioned above. This meeting to be held at Guthrie would never have been called had the Tobacco Trust & Co., been wise. Why did not the tobacco buyers, with the tobacco situation so well in hand, not buy a liberal price for last year's crop?

Had they done so, no gathering of the planters to form a protective association would have been called so soon. But these hungry, heartless, soulless creatures of Mammon gave way to greed and killed the "grove that lays the golden egg," by forcing their agents to buy our tobacco below the cost of production.

This is the age of battle thrown down by the tobacco trust and its confederates; and will be accepted by the planters at Guthrie, Ky., Sept. 24, 1904, with a magnanimous sanction by law and an intelligence worthy of the Twentieth Century.

We find in the Nashville American of the 12th inst. the following: St. Louis, 11.—Local stockholders of the Cincinnati Consolidated and American tobacco companies have been notified that a meeting will be held at New York City Sept. 30 at which time a complete merger of the three concerns will be voted upon.

The proposed company will control the entire business of the country.

Fellow planters, we feel it to be our bounden duty to urge you to a Man to attend the Guthrie, Ky., meeting in the interest of the women and children that are so dear to you; in the interest of the material prosperity of this section of our country, known as the Clarksville tobacco district; in the interest of your liberty as American citizens; else you will deserve the name of cowards and the very women and children will croak the finger of scorn at you.

Kentuckians and Tennesseans of the Clarksville Tobacco District, can you stand that? We cannot, and will go to Guthrie and enter the organization.

J. H. FOSTER, Sec'y,  
Robertson Co., Tenn., Tobacco Growers Association.

Cancer Cured By Blood Balm—All Skin and Blood Diseases Cured.

Mrs. M. L. Adams, Fredonia, Ala., took Botanic Blood Balm, which effectually cured an eating cancer of the nose and face. The sores healed up perfectly. Many doctors had given up her case as hopeless. Hundreds of cases of cancer, eating sores, suppurating swellings, etc., have been cured by Blood Balm. Among others, Mrs. B. M. Guernsey, Warrior Stand, Ala. Her nose and lips were raw as beef, with offensive discharge from eating sores. Doctors advised cutting, but it failed. Blood Balm healed the sores, and Mrs. Guernsey is as well as ever. Botanic Blood Balm also cures eczema, itching humors, scabs and scales, bone pains, ulcers, offensive pimples, blood poisoning, carbuncles, scrofula, rashes and bumps on the skin and all blood troubles. Druggists, \$1 per large bottle. Sample of Botanic Blood Balm free, send prepaid by writing Blood Balm Co., Atlanta, Ga. Describe trouble and special medical advice will be sent in sealed letter. To be certain, write while investigating such a remarkable remedy as the Blood Balm. Cures the most awful, worst and most deep-seated blood diseases.

sonville, former attorney general,  
will move to Oklahoma.

Former Congressman Sam J.  
Pugh has been nominated by the  
Republicans as their candidate for  
Congress in the Ninth district.

New Jersey Democrats nominated  
Charles C. Back, of Hudson county,  
for Governor. The convention was  
harmonious.

The Montana Democratic conven-  
tion defeated a fusion  
proposition from the Populists  
and nominated a ticket headed by  
Gov. J. K. Toole.

Boss Platt was set aside by the  
Republican convention in New York  
and Boss O'Neil was enthroned in  
his stead. Hanna and Quay are  
dead and Platt disposed, but the  
Republican party will continue to be  
a boss-ridden party. Teddy is  
something of a boss himself.

Judge W. H. Mackay, in a test  
case at Covington, holds the Brad-  
ley registration law to be uncon-  
stitutional. An appeal will be  
taken and the law will of course re-  
main in force until the Court of Ap-  
peals passes upon it.

Frank W. Higgins, present lieuten-  
ant governor, has been nomi-  
nated for governor of New York by  
the Republican convention, control-  
led by Gov. Odell. Higgins is a  
man of large wealth, who has been  
in the State Senate for ten years.

The tobacco planters of the  
Clarksville district will meet at  
Guthrie next Saturday for the  
purpose of organizing for mutual  
protection against the Tobacco Trust.  
The undertaking is a task of hercu-  
lean proportions, but it is about  
the only recourse left to the vic-  
tims of the trust. The dark tobacco  
district comprises only a few  
counties and it is possible to organi-  
ze the growers of these counties  
and prevent the trust from securing  
the present crop without paying a  
fair price for it.

The readers of this paper will be  
pleased to learn that there is at  
least one dreaded disease that  
science has been able to cure in all  
its stages, and that is catarrh.  
Hall's Catarrh Cure is the only  
positive cure now known to the  
medical fraternity. Catarrh being  
a constitutional disease, requires a  
constitutional treatment. Hall's  
Catarrh Cure is taken internally,  
acting directly upon the blood and  
mucous surfaces of the system,  
thereby destroying the foundation  
of the disease, and giving the  
patient strength by building up the  
constitution and assisting nature in  
doing its work. The proprietors  
have so much faith in its curative  
powers that they offer One Hundred  
dollars for any case that it fails to  
cure. Send for testimonials.

The October Delinquent is a many  
featured number, containing, in ad-  
dition to a complete survey of the  
autumn fashions, entertaining fic-  
tion and special articles of wide  
interest. Richard Lee Gallienne  
contributes the first part of an idyl,  
"Poet, Take Thy Lute," an ex-  
quisite dream tale, comprising some  
tuneless lyrics, and there is a clever  
bit of fiction by Ellen Douglas De-  
land, entitled *The Mother of Em-  
eline*, and also the first part of a  
story by Ethel Watts Mumford, "*A  
Matter of Millions*," a delightful  
commingling of humor and pathos.  
A series on "*The Loves of Great  
Composers*" begins in the number  
with the story of Beethoven and his  
Immortal Beloved, which is filled  
with interest, not only for music  
lovers, but for every one who has a  
liking for romances of the heart.  
Christine Terhune Herrick writes  
of Field Hockey as a new form of  
recreation for girls, the article be-  
ing presented with the hope of giv-  
ing this healthful exercise wide  
popularity in America. Lillie  
Hamilton French has a serious pa-  
per in the "*Joy of Living*" series,  
on the value of the Written or the  
Spoken Word. The story of  
Mary Dunlevy concludes the series  
on Great Women of Pioneer Times,  
and Physical Exercise is discussed  
in "*The Fountain of Youth*." For  
young people are provided stories  
and pastimes that amuse as well as  
instruct, and the domestic interests  
are treated thoroughly and practi-  
cally.

Capt. C. T. Allen, of Mexico, Mo.,  
says the Paducah News-Democrat,  
lawyer, lecturer, journalist and  
gallant Confederate veteran, will  
on Nov. 1, begin the publication of  
the "*Southern Sentinel*," a monthly  
magazine devoted mainly to South-  
ern history. Southern men and  
their achievements in the creation,  
growth and development of the  
American republic from the first  
permanent English settlement at  
Jamestown, Va., A. D. 1607, down  
to the present time, and to the dis-  
cussion of Southern interest gen-  
erally. Capt. Allen formerly pub-  
lished the *Banner* at Princeton and  
was in the late constitutional con-  
vention.

The last legislature passed a law  
making the circuit clerk the chair-  
man of the county election board, in  
counties containing second class  
cities. This was intended to re-  
move Sheriff McInerney of Covington.  
A test suit was brought and special  
Judge Lassing decided that the  
new law was class legislation and  
therefore unconstitutional and void.

The speech-making of the presi-  
dential campaign in Kentucky, will  
be inaugurated by the Democrats  
on October 3, at various points in the  
state. All of the speakers avail-  
able will be given assignments for  
that date. At present general  
apathy prevails but it applies to  
both parties alike. There are no  
indications that the Republicans  
are going to pay any attention to  
Kentucky, except in two or three  
congressional districts.

The Russian transport *Lena*, which  
crossed the ocean to seek  
refuge in the San Francisco harbor,  
will be dismantled and allowed to  
remain until the close of the war.  
It has not been determined what  
will be done with the 466 members  
of the crew. They want to return  
to Russia by way of New York.

A negro man named Fred Lee  
committed suicide at Louisville by  
jumping into the canal, because he  
owed \$45 he could not pay. If all  
those who contract debts they do  
not expect to pay were to jump into  
the river, the stream would be ef-  
fectually dammed.

The Populists of the First Dis-  
trict met at Paducah Saturday and  
after being addressed by their  
Presidential candidate, Tom Watson,  
nominated Dr. J. H. Lackey,  
of Trigg county, for Congress.

A State conference of the D. A. R.  
will be held in Louisville next week  
and a reception will be tendered the  
visiting delegates at the Louisville

Prince Herbert Bismarck, son of  
the great German chancellor, died  
Sunday, aged 55 years. He leaves  
five children and a \$4,000,000 es-  
tate.

The attendance at the World's  
Fair on St. Louis day was 404,450.

The Republicans had it all their  
own way in the attempt at Coving-  
ton to knock out the registration  
law. The plaintiff, the defendant,  
the judge and the attorney were all  
Republicans. The Democrats will  
be represented by McQuown &  
Brown in the Court of Appeals and  
will try to get the case heard to-  
day. Able lawyers say the new law  
is not unconstitutional.

The State Central Committee will  
meet with the district committee at  
Somerset to-morrow when the court  
order to re-count the vote in the  
Edwards-Hunter primary is  
obeyed. After the re-count has  
been made, Dr. Hunter will doubt-  
less have one of Gen. Kuropatkin's  
famous reports to make, "I re-  
gretfully to announce, etc."

Trigg county has named 32 dele-  
gates to attend the farmers' meeting  
at Guthrie next Saturday to discuss  
the tobacco situation. Christian  
county will send a still larger dele-  
gation.

The triennial catalogue of Yale  
College gives a total of 23,035 grad-  
uates, of whom 12,144 are living.

## A GREAT PLAY.

"The Sign of the Cross" To Be  
Presented Here.

Wilson Barrett's great play,  
"*The Sign of the Cross*," which  
has been the success of two conti-  
nents during the last five years,  
will be presented at Holland's  
Opera House next Monday night,  
Sept. 26. Although the piece has  
been of the greatest theatrical suc-  
cess of the day and is well  
known in all of our largest cities,  
this is the first time that it has  
made a tour comprising any but  
some twenty of the most prominent  
cities. It is gratifying to be able  
to state that the company that  
comes to us, as strong dramati-  
cally as the organization that Wil-  
liam Greet has been sending to  
America and which ran for weeks  
each year in such cities as Boston,  
Chicago, Philadelphia and Balti-  
more. The scenery, costumes and  
appointments are the same that  
Mr. Greet sent to this country for  
the original production of the piece  
at the Knickerbocker theater, New  
York. The company is composed of  
English and American actors who  
have been selected with special  
reference to their temperamental  
fitness for the parts entrusted to  
them.

## SOFT CORE

Like the running brook, the  
red blood that flows through  
the veins has to come from  
somewhere.

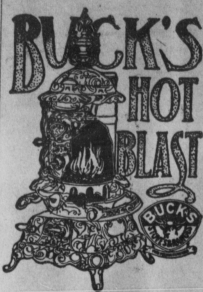

The springs of red blood are  
found in the soft core of the  
bones called the marrow and  
some say red blood also comes  
from the spleen. Healthy bone  
marrow and healthy spleen  
are full of fat.

Scott's Emulsion makes new  
blood by feeding the bone  
marrow and the spleen with  
the richest of all fats, the pure  
cod liver oil.

For pale school girls and  
invalids and for all whose  
blood is thin and pale, Scott's  
Emulsion is a pleasant and rich  
blood food. It not only feeds  
the blood-making organs but  
gives them strength to do  
their proper work.

# To Heater Wanters!

Just imagine a heater that will  
get the same result out of one 1-4 ton of  
the cheapest kind of soft coal as a  
high price bad burner will with one ton  
of hard coal.

That is what is claimed for the  
Buck's Hot Blast, and in order to  
prove it we are going to give a dem-  
onstration in front of our store on

September 20, at 9 O'clock.

We are going to show that 38 per cent. of gas and  
smoke in soft coal can be, AND IS USED as fuel in this  
wonderful heater. If you have any idea of buying a  
heater, you should call and let us show you a Buck's Hot  
Blast. It is just exactly what you want. See it on exhi-  
bition in our window.

### The October "Smart Set."

The October number of *The  
Smart Set* is a veritable mine of  
brilliant stories and poems.  
"Moored," by Anna A. Rogers, is  
the title of the novelette which  
opens the issue. It is a story full  
of power and quiet humor, dealing  
with the temptation which comes  
to the young wife of a naval officer  
while he is abroad and she is  
"moored" at home. The tale leaves  
a remarkably vivid impression and  
will attract wide attention.

Gouverneur Morris, in his short  
story, "*The Lady of Moods*," has  
written as striking a piece of work  
as has recently appeared in any  
magazine. Its wonderful art  
stamps this young author as a ge-  
nius. Is a widely different vein  
is the late Guy Welmore Carry's hu-  
morous tale, "*A Tide in the Affairs  
of Stephen Girdler*." It is brimful  
of delightful character drawing.  
In "*The Two Ghosts*" Richard Le  
Gallienne is at his best as a good-  
natured satirist and brilliant epi-  
grammatist. "*When Delos Drift-  
ed*," a story by Beatrix Demarest  
Lloyd, a new writer of great prom-  
ise, is one of the most notable in the  
number, though one must remember  
the poetic beauty of Zona Gale's  
"*A Land a Great Way Off*," the in-  
tense realism of Theodore Water's  
"*The Passing of Gon Out*," the keen  
analytic power of Willard French's  
"*The Mastiff*," a story of political  
life in Washington, and the clever-  
ness of Barry Pain's "*The Re-  
wards of Perseverance*," the last  
and perhaps the best in the series  
of detective stories which the dis-  
tinguished English author has  
written exclusively for the *Smart  
Set*.

Two essays, one by Agnes Rep-  
plier, the other by F. J. Knight  
Adkin, add charm to this number;  
and there are excellent poems by  
such favorite verse-writers as Jo-  
quin Miller, Ernest McGaffey,  
Theodosia Garrison, Madeline  
Bridges, P. McArthur, Frank Lil-  
lie Pollock, Thomas Walsh and  
Arthur Macy. Variety is the dis-  
tinguishing note of the October  
*Smart Set*, and no two of its sto-  
ries are in any way alike.

## Men's \$15.00 Suits!

## THE PRIDE OF OUR STORE.

Fifteen Dollar Suits seem to be  
about the popular price that strikes  
the average man as being right for a  
suit of clothes.

Our \$15 suits are famous for their  
quality excess, when compared with  
the ordinary suits at that price. The  
same suit at your tailors' would cost  
you \$30.00 or more.

What you get here is good, honest  
material, stylish clothes, excellent trimmings  
and a perfect fit. See our \$15.00 dress suits  
and you will understand. You can put  
one of them right on and we will prove to  
you that it is a tailor-made garment.

### WONDERFUL REMEDY.

Cold Storage Treatment Cures Boy of Tetanus.

After being kept in cold storage for two weeks, Francis, the year-old son of Mr. and Mrs. John McKee, of South Omaha, has been pronounced cured of a severe case of tetanus, or lockjaw.

When the physician was called to see the boy he was in the first stages of the dreaded malady, the attack being brought on by a splinter in his foot.

Convulsions came on and the boy's condition grew rapidly worse. The physician finally prevailed on the parents to permit him to take the patient to the chillroom in a big brewery. His condition improved noticeably at once but the boy objected to staying in the chillroom and was taken back to his home. There the convulsions returned immediately, and death was apparently only a few hours off. The physician again prevailed upon the parents to permit the boy to be taken back to the chillroom.

Within one hour after he was taken there the severity of the convulsions had been greatly reduced and the patient was able to straighten out his legs. Within two days the convulsions disappeared entirely, and the next day the boy was able to take nourishment. This was a week ago. Friday he was pronounced cured.

### WOMAN ACQUITTED.

Mrs. Bessie Willis Cleared of Charge of Complicity in Murder of Brother.

Hopkinsville, Ky., Sept. 16.—The jury in the case of Mrs. Bessie Willis' trial at Cadiz for complicity in the murder of her brother, Lieut. W. B. Johnson, at Cantons, in March, 1903, returned a verdict of not guilty this morning. The argument was concluded last night at a special session of the court and the jury did not begin deliberations until today. It was out only thirty minutes and took three ballots. The trial of Lawrence Willis, charged with complicity in the same crime, was continued until the February term of court.

### BOLLINGER-CHERRY.

Popular Young Pembroke Man Weds Texas Woman.

Mr. Harry R. Bollinger and Miss Mabel Cherry treated their many friends to a genuine surprise Wednesday by getting married, says the Pembroke Journal. They drove through to Clarksville Wednesday morning, where the nuptial knot was tied. The bride's home is in Texas, but she had been visiting the parents of the groom near the city, who are related, for several months. She is a charming young lady and is much admired by all who know her. The groom is a son of Mr. and Mrs. H. H. Bollinger, and a gentleman whose friends are legion. He is a salesman at W. H. Jones' grocery.

### IN HIS NIGHTIE

Mercer County Judge Marries Youthful Couple.

Harrodsburg, Ky., Sept. 15.—At the midnight hour last night County Judge Roach was awakened by an alarm at the door of his home. Upon answering the ring he found a very young couple awaiting to be married. They were Robert H. Guinn and Miss Carrie Lee Steele. Knowing them to be mere youths the judge came down attired robe de chambre and performed the ceremony. Guinn is just fifteen years old, and his bride is about the same age.

### STOLEN NAVAJO GIRL

FURNISHED A BIT OF DIVERSION FOR INDIAN COUNCIL.

Her Ute Lover Overtaken in His Flight and Forced to Pay Double for His Fair Enamorata.

When the extension of the Santa Fe & Pacific railroad was projected a few years ago through the Navajo Indian country along the border line of New Mexico and Arizona, a great number of the Indians was called by their head chief to consider what opposition, if any, should be made to the work.

Among the notable chiefs who attended the council, Big Bull was probably the most conspicuous. He came down from his log hogan on the Chasas, mounted on a spirited stallion, and went in regal style through Canyon Bonito, in which the council grounds were located, followed by a dozen bold, red-blanketed warriors. The wail of his people had scarcely died away when Kettle and Long Mouth and Bull Elk, in rapid succession, hastened after, riding through the council grounds at full speed, followed by retinues of dusky warriors glorying in the barbaric splendor of their highly colored and silver ornamented trappings. After a prolonged delay the council finally settled down to the business for which it had been convened, and eventually very wisely decided not to interfere with the building of the road.

A considerable number of the warriors in attendance at the council were accompanied by members of their families, and the plain at the mouth of the canyon in which the council convened, was speedily covered for some distance about the opening with the temporary hogans of these people. A number of the warriors, attracted by the assembling of the Navajos, also gathered at the mouth of the canyon and established themselves in bivouacs on the plain near the Navajo encampment. The Utes had scarcely settled down to their chosen location when one of their number, an adventuresome young

ON HER WAY TO A NEIGHBORING SPRING FOR A GROUND OF WATER.

warrior, became smitten with the charms of a Navajo maiden, whose mother's hogan adjoined his bivouac, and in accordance with the customs of the girl's people, sought out her father and made him an offer of horses for the squaw. The offer was promptly refused, with the hope doubtless of obtaining a better one, but the young man was promptly declined to increase his and withdrawing his bivouac, set about contriving a plan to seize the girl and carry her away to a hiding place in the mountains, where he hoped to be safe from pursuit.

A day or two elapsed after the plans of the young warrior were matured, and one morning just before dawn as the girl was hastening along a path through a dense tangle of vines and bushes, on her way to a neighboring spring for a ground of water, the Ute seized her, and smothering her cries with his hand, carried her to his bivouac and placing her on a led horse, mounted himself and fled northward with her towards the country of his people.

When the theft of the squaw was finally discovered a party of Navajo warriors quickly assembled, and headed by the father of the maiden, hastened in pursuit. The fugitives were quickly overtaken and the Ute was compelled to settle the affair by the payment of a double remuneration in horses and silver trinkets.

"And what became of the girl?" asked an army officer of one of the pursuing party some time after the occurrence. "Oh, that's no matter!" replied the warrior, with a show of annoyance at the question. "You see," he continued directly, "when the father got the horses the affair was ended, and the squaw belonged to the Ute."

"I see," said the officer. "The father was more concerned in getting the Ute's horses than in recovering his daughter."

"The white man's ways are different," said the Navajo, apologetically. "Evidently," said the officer, "but are many girls stolen?"

"No," replied the warrior, abruptly. "It might cost more that way. It is safer to buy. Possibly the squaws would like it," he added, reflectively, "for after the squaw was stolen at the council other squaws went often for water in the early morning. They said as they went," he added, "and good as doves that seek their mates, but no one came. No, no," he concluded, "let them cool. It is better to buy."

### HOTEL WAITRESS.

Miss Ida Michener En Route to Carmel, Ind., to Look After Her Supposed Legacy.

Colorado Springs, Col., Sept. 18.—Miss Ida E. Michener has quit work as waitress at the Colorado Midland Eating House, at Cascade, and is now en route to her home at Carmel, Ind., to look after her share in the \$15,000,000 estate which she and her seven brothers and sisters are soon to come into possession of. The estate, she says, consists of lands and money. Miss Michener said:

"My great-grandmother, Lady Margaret, of Essex, married against her family's consent, hence all our troubles. That she was left a big estate is evidenced by letters from London solicitors and court officers. The estate will soon be paid to us."

### Fine Rain Yesterday.

A good rain fell Sunday afternoon and was followed by another yesterday morning that put an end to the drought conditions and filled empty cisterns in the city.

McClure's for October is timely in the best sense. It reads vigorously and intelligently some of the important lessons of the hour. McClure's does not deal with the cursory and the superficial, but with the vital, fundamental thing, and interprets its real meaning and application. It is impressing itself tremendously on the life and thought of the day by its weighty and authoritative way of doing things. In the dramatic story of Governor LaFollette and the fierce political war which is rending the State of Wisconsin, Lincoln Steffens has found material, not only for a stirring story, but for the presentation of facts and principles of the gravest significance to the Republic. The fight here, as elsewhere, he finds, is for self-government, representative of all the people. He keenly analyzes the opposing forces and defines the issues.

### GREAT EVENT

Will Be the Horse Show at Pembroke This Week.

All details for holding the Christian County Horse show at Pembroke Friday and Saturday, Sept. 23-24, are well in hand. The event is being extensively advertised and an unusually large attendance is assured.

Already scores of prominent stockmen throughout Southern and Western Kentucky have signified their intention of attending and competing for the prizes. Without a doubt the finest collection of fine blooded saddle and harness horses ever entered in a Kentucky fair will be seen on this occasion.

The Louisville & Nashville railroad has granted a rate of one fare plus 25 cents for the round trip from Bowling Green, Clarksville, Elkhorn, Madisonville and intermediate points on account of the Horse Show.

Admirers of Kentucky's famous live stock product cannot afford to miss this great exhibition.—Pembroke Journal.

### WORKERS IN FIELD.

There Will Be Meetings Held in This County.

The American Society of Equity is now sending workers in every agricultural section of the United States, organizing the farmers for profitable prices for all products grown on the farm. We expect to price the growing crop of tobacco as we did our wheat. Come to the following places and times. There will be speaking at the following places this week:

Gracey, 1 p. m. Sept. 20.

Lafayette, 10 a. m. Sept. 21.

Roaring Spring, 2 p. m. Sept. 21.

Farmers, avoid the ingenious scheme to frighten farmers into low prices by joining the A. S. of E. The Appeal is to you. We have now more than 500 local unions in the State of Kentucky. The wheat and bean sections are organized.

F. B. McCOWN.

### Parlor Talks.

Mrs. Margaret H. Wormald will, the second week in October, begin a series of Parlor Talks on noted writers and historical characters. Twenty or more ladies will take the literary course thus presented by Mrs. Wormald, who is thoroughly qualified to both instruct and entertain. The course will probably begin with a talk on Shakespeare October 15.

### TO PROVE EARTH ROUND.

Simple Experiment That Was Tried in England Thirty Years Ago.

Although it was demonstrated more than 2,000 years ago that the earth is globular in form, there are certain persons who maintain that it is flat. About 30 years ago a controversy on the subject waxed so hot that it was determined to put the matter to direct experiment in order to settle the question once for all, says the Philadelphia Record.

The place chosen was near Bedford, England, where there is a straight six mile stretch of water. At both ends and in the middle of this water posts were erected, each of the same definite height above the water level. Upon looking with a telescope along the top of these three posts it was clearly seen that the center one overtopped the others by about six feet, owing to the curvature of the surface of the earth.

These experiments were recently repeated in a more scientific manner by H. Yule Oldham, who read a paper on the subject before the Glasgow meeting of the British association. The same results were obtained, with the important difference that by the employment of a tele-photographic lens and camera the six foot prominence of the middle post was recorded in an unmistakable manner.

### CERTAINLY A BRAVE GIRL.

Daily Task of Invalid Rural Mail Carrier in Helping Her Mother.

The bravest girl in the state of New Jersey on Uncle Sam's list of rural mail carriers is Miss Villa Potter, of Willow Grove, says the New York Times. She carries the mail from Newfield, Gloucester county, to Portonout, the surrounding county, covering a route of 29 miles all told.

Miss Potter has been an invalid for 18 years, being a victim of typhoid fever when 13 years old. Her father, Michael Potter, was killed in a well several years ago, and her brother, Frank, died carrying the mail. Then she determined to help her mother make a living.

Every morning her mother wheels her out to the mail wagon and assists her to get in. The farmers all along the route built the boxes close to the roadside, so that the invalid can deliver the mail without getting out, for she cannot stand alone. Her mother takes care of three horses and two cows, and by the help of her daughter makes a comfortable living.

Miss Potter's appointment two years ago was enthusiastically approved by the people, who, she says, show her every possible kindness. Her popularity increases because of her punctuality.

### TOWN WHERE FUEL IS FREE

Shoe Factories of Lynn, Mass., Supply the People with the Wornout Lasts.

"Go to Lynn if you want free fuel," said a Bostonian, recently. "You can get in Lynn the best wood in the world for nothing. The town of Lynn is full of enormous and magnificent shoe factories. These factories, in order to keep their product fashionable and correct, change their lasts every season. Thus as soon as a season is over thousands of lasts become worthless except for burning."

"The manufacturers might sell the lasts, but for some reason or other they don't do this. They give them away. And the Lynn people appreciate this generosity. At any rate it is possible in their beautiful town to see a Lynn man with a grateful look on his face taking home a load of lasts in a cart."

"The lasts make admirable fires. The good, hard wood in them gets red hot and burns with a great glow of heat for a long time, like coal. The only trouble is their shape. They look, you know, like feet. To see them flaming in a fire place gives a stranger a shock at first. He wonders if he has happened in upon the end of a cremation."

### COAST GUARDERS GET RICH

Steamship Goes Ashore and Maine Folk Pick Up Much Valuable Salvage.

When a steamboat is wrecked on the coast of Maine there is a grand harvest time for the fishermen and other coast dwellers, who usually are described by steamboat men as pirates, says a Bangor report.

The wreck recently at Gangway ledge, Penobscot bay, of the big sidewheel steamer City of Rockland afforded these pillagers a chance to "get rich quick" on a small scale, for the Rockland carried a great cargo of miscellaneous merchandise, including everything from laces, curled peaches, and whiskey to \$2,000 in automobiles.

The steamer struck at 5:30 o'clock in the morning in a thick fog, three hours before the passengers were taken off. Shortly afterward the crew and officers left, so the steamer and its rich freight were easy prey to the wreckers. For six hours it was surrounded by a fleet of small boats, estimated to number 200, and a wild scramble for the abandoned wealth began. The steamer lay high up on a ledge with the stern out and the forward part of the vessel submerged at high water. At every rise of the swell a cargo of freight washed out of the forward gangways, where the fishermen were on hand to grab it.

The bay was covered with all descriptions, most of which was picked up, but some of which had floated away to line the shore. The natives have been feasting on the California fruits which bob about the water for miles, and the children of the bay islands pick each other with pears, peaches and cantaloupes.

Humble dwellings along the shore are dignified with mahogany furniture, velvet carpets, lace curtains and the like, while barns and fish houses are stored full of all kinds of goods on which the fishermen expect to get high salvage. The cargo of the City of Rockland was worth about \$90,000.

A peculiar discovery has been made in connection with the wreck of the Rockland. It rests directly upon the sunken bulk of the old steamer City of Portland, which was lost on the same ledge in 1881.

### FINE TEA FOUND IN BRAZIL

Beverage Made from Yerba Mate an Excellent Substitute for Chinese Product.

United States Consul Aeneas writes from Para a recommendation of a Brazilian beverage, yerba mate tea, which is prepared from roasted and pulverized leaves of an evergreen forest tree.

Yerba mate is largely consumed in Paraguay and in the Brazilian states, where it is made. It is extensively consumed in Argentina, in Uruguay, and to a less extent in Chile. There is a small consumption in other states of Brazil, and a small quantity is exported to Europe and still less to the United States and Canada. Estimated exports may reach 45,000 to 57,000 annually.

Yerba mate has a peculiar bitter smoky taste, which is usually considered unpleasant, and this has largely operated to prevent its more extensive use as a beverage. This smoky bitterness is chiefly due to the rude method employed for drying the leaves and it seems likely that the improved methods of drying the mate on iron trays or pans would give a much more delicate and agreeable product. Mate is said to have all the best qualities of coffee and tea as a stimulating health beverage, without the disadvantage of either. It is a more gentle stimulant than either and is said to be much used in the hospitals of Paris.

The tree could probably be grown in southern California, perhaps in southern Texas, certainly in many parts of the Philippines.

### Brilliant Clocks.

The municipality of Berlin has decided to hang clocks, worked by electricity and in connection with the observatory, at all the principal corners of the leading streets. The dials of these clocks will be illuminated at night. They will be suspended from the poles supporting the electric lamps which light the streets. A beginning has been made with 17 clocks, and should the experiment succeed 300 of these clocks will be scattered over the city.

### THE STURDY LITTLE JAP.

Although Small in Stature He Gives the Impression of Being Very Hardy.

Little! The idea that Japan is a land of little men, that is a half-truth, and therefore doubly misleading. The average Jap we see in Europe gives no fair idea of the physique of his people. He nearly always belongs to the professional classes. Now, the professional and prosperous Jap is, one must admit, as a rule small and of apparently little stature. He gives one the same impression as does the Paris boulevardier of having frittered away his manhood on worthless things. But he no more represents the average man of his people than does the boulevardier represent the French peasant, says the London Mail.

The average Japanese man, while not tall, gives one the impression of being probably the hardest man on earth. He lives perpetually in the open air and on the simplest food. His home consists of paper screens, which never shut out the air wholly, and are always open a great part of the day.

He is hardy because he has been inured to the most extreme discomfort since infancy. He does not know what comfort is. His home has practically no furniture. Matting, bedding (no bed) and a tray for food supply his wants. In a land cold beyond belief over a large part of the year, he never has a coal fire, but warms himself over a box holding a few fragments of burning charcoal.

### CLOUDS EIGHT MILES HIGH

Peculiarities of Great Masses When Gathering Forces for a Thunderstorm.

A great cumulous thunderhead cloud, towering up on the horizon like a huge flamboyant iceberg, is often higher than the highest Alps would be if they were piled on top of the Himalayas.

It is not unusual for these clouds to measure five, six, and even eight miles from their flat, snow-bases, hovering a mile or two above the world, to their rounded, glistening summit, splendid in the sunlight. And in these eight miles the changes of temperature are as great as those over many thousand miles of the earth's surface. These clouds contain strata of temperature, narrow belts of freezing cold alternating with large distances of rainy mist and frozen snow and ice particles.

Hailstones, which are formed from a snow particle that falls from the upper strata and is frozen hard in the freezing belt and coated with added ice on the wet belt, are often found with a series of layers in their formation, showing that they have passed through this succession of cloud strata more than once on their way from the upper air to the earth.

### THE WAITER LOST A TIP.

Gave the Guest He Was Serving Just the Opening for an Escape.

At one of the Kansas City hotels where the colored waiters give especially good service, but always expect adequate remuneration for the same from the guests, a waiter was especially officious the other day in serving a man from whom he expected a liberal tip, relates the Journal. When the meal had been served and he was standing off at one side, eagerly looking for an opportunity to be of service, he said to the guest: "Didn't you have a brothless head last week, sah?"

"No," said the one addressed, "believe not."

"Well," continued the waiter, "thet was a gump'n head at mah table what looked vey much like you, and he was so well pleased with the service that he gave me 50 cents when he left."

The guest had by this time finished his meal, and as he rose he said to the expectant servant: "Come to think of it, Sam, that was my brother that was here, and I guess he paid you for the whole family. He may be back again in a week or two."

### IT IS SERIOUS.

Some Hopkinsville People Fail to Realize the Seriousness.

The constant aching of a bad back. The weariness, the tired feeling. The pain in the aching of kidney. These are serious—if neglected. Dangerous urinary troubles follow.

A Hopkinsville citizen shows you how to avoid them.

J. M. Bell, Sr., retired farmer living at 1121 East 7th St., says: "I have been so much a sufferer from kidney trouble that for a long time past I had been most anxious to find something that would offer me even the slightest degree of relief. The principal symptoms of my troubles were of a constant dull aching in the small of my back and a distressing irregularity of the kidney secretions. Reading of Doan's Kidney Pills, and hearing them highly spoken of, I went to Thomas & Trahern's drug store and got a box. I used them according to directions and noticed beneficial results from the first few doses. My health has been vastly improved. I also gladly endorse Doan's Ointment, which I used for itching hemorrhoids, which proved to be a great remedy, for that exasperating disease."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

### DEMOCRATIC GAIN.

Shown in the Complete Figures From the Maine Election.

Portland, Me., Sept. 14.—A Republican plurality of 27,130 is shown by complete returns from the state election Monday, the unofficial tabulation of which from the 522 cities, towns and plantations was completed today.

The total vote for governor, as tabulated, was Cobb (Rep.) 78,460, Davis (Dem.) 51,330.

The legislature, which will elect a United States Senator, is safely Republican.

The figures for 1904 show a Republican gain of 4,990 over four years ago and a Democratic gain of 11,244, or a net Democratic gain of 6,256.

### Abscess.

W. H. Harrison, Cleveland, Miss., writes: "I want to say a word of praise for Ballard's Snow Liniment. I stepped on a nail, which caused the cords in my leg to contract and an abscess to rise in my knee, and the doctor told me that I would have a leg, so one day I went to J. F. Lord's store, (who is now in Denver, Colo.) He recommended a bottle of Snow Liniment; I got a 50c size, and it cured my leg. It is the best liniment in the world."

Abscesses, with few exceptions, are indicative of constipation or debility. They may, however, result from blows or from foreign bodies, introduced into the skin or flesh, such as splinters, thorns, etc. Sold by R. C. Hardwick.

Take a small dose of Herbine after each meal; it will prevent constipation and help digest what you have eaten. 50c. Mrs. William M. Stroud, Midlothian, Texas, writes, May 31, 1904: "We have used Herbine in our family for eight years, and find it the best medicine we ever used for constipation, bilious fever and malaria. Sold by R. C. Hardwick."

## DAY OF ATONEMENT

Was Observed By Hopkinsville Jews.

Orthodox Jews all over the world yesterday observed Yom Kippur, the Day of Atonement, the most important day in the religious calendar of the Jews. This observance began at 6 o'clock Sunday night and ended at 6 o'clock last night. It is essentially a fast day, during which all Jews are to make atonement for the sins committed during the past year.

Yom Kippur is regulated by the arrival of the Jewish New Year and comes ten days after that holiday. The law regulating its observance is laid down in the 23rd chapter of Leviticus, which says that the day of atonement shall be observed the tenth day after the advent of the new year. On this day all Jews fast for twenty-four hours, and the greater part of the day is spent in prayer for the remission of the sins committed during the year. Continuous services are held in all the synagogues, and a day of mourning is spent all over the world. Business of all kinds is temporarily suspended.

In Hopkinsville the day was generally observed. Services of a special character were held by Mr. J. M. Frankel at Mrs. D. Frankel's residence, as there is no synagogue here.

### PARALYTIC STROKE.

Judge Fenton Sims Stricken in the Court Room at Cadiz.

Cadiz, Ky., Sept. 15.—As the closing argument in the Mrs. Bessie Willis murder case was being made this afternoon, Judge Fenton Sims was stricken with paralysis. Medical attention was hastily summoned, but physicians are yet unable to determine whether his condition is serious or not.

Judge Sims is one of the foremost lawyers and jurists of Western Kentucky, and represented his district in the Kentucky State Senate.

In the midst of his speech he suddenly fell to the floor. It caused a profound sensation. While being removed from the bar in a semi-conscious condition, he looked towards the jury and said in an incoherent and almost inaudible words: "Gentlemen of the jury, so far as I am concerned, I submit the case."

### Stepped on Its Own Tongue.

If this did not come from such a reliable source it might be doubted, but the Springfield News-Leader vouches for it and that is sufficient.

### The News-Leader says:

Last week Dowden Veatch, who lives just across the line in Taylor county, was the eyewitness to a most peculiar accident. He had been working one of his mules during the day and took it to the creek near by to water it. Having drunk all the water it wanted it stepped a few feet to the side and began to lick the blue soil, which seemed to contain a salty substance. The animal persisted in remaining as long as possible at the "blue lick" and finally when urged to move it stepped on its own tongue with one of its fore feet and in the struggle to free itself from this peculiar position tore or cut off about seven inches of the licking member.

### MORE SUITS.

Three Filed Since the Kentuckian's Last Report.

Last Friday was the last day for filing suits for the fall term of court. Since our last report the following petitions have been filed: J. P. Thompson & Co. vs. A. O. Dority & Co.; Same vs. J. H. Bel and J. H. Anderson, and Mrs. C. M. Lee vs. I. C. railroad company.

The plaintiff in the first case asks for \$2,418.75, claiming breach of contract. In the second suit plaintiff charges that defendants attached a lot of his tobacco, which was sold by order of court, causing him to lose heavily, and prays for \$1,000 damages.

In the third suit plaintiff asks \$1,000 damages from the railroad. It is alleged by this plaintiff that recently she was a passenger on defendant's train and on leaving the train in Louisville, she stepped in a hole in the platform, injuring one of her feet.

## PEMBROKE GAME

Was Too Easy to be Interesting Thursday.

The game of base ball at Pembroke Thursday between the Hopkinsville K. I. T. team and the Pembroke team, reinforced from Clarksville, resulted in an easy victory for Hopkinsville, the score being 14 to 1.

The line up was as follows:  
K. I. T. Pembroke.  
Blackburn s. s., Stark 3rd b., Marre 2nd b., Mullen cf., Morris 3b., Harris s. s., Meyers 1b., Dr. Barker rf., Maender cf., C. Bourne 1b., Bomar rf., R. Bourne 2b., Brady lf., U. Bourne lf., Ketter c., James c., Alexander p., Willis p.  
Willis, the Clarksville pitcher, made a poor showing and in the eighth inning he was taken out and Mimms, an amateur, finished the game. The only score made by the Pembroke team was in the second inning when Dr. Barker singled and stole second and R. Bourne made a hit and scored Barker. The proceeds of the game amounted to \$62.50, of which the K. I. T. team got \$49.95.

### CLOSE RACE

In Third District Between Porter and Richardson.

Reports from mass county conventions held in the Third district Saturday to select delegates to the district convention to nominate a Democratic candidate for Congress show a close race between N. A. Porter and J. M. Richardson. Porter has 45 instructed votes and Richardson has forty-six, of which the seven votes in Allen and nine in Todd are contested by Porter. The eight votes of Simpson county were instructed for E. J. Hobdy. There are 99 votes in the convention to meet at Scottsville to day. Hobdy's vote will go to Richardson with Hobdy out.

### The "Kitty" League.

Clarksville, Tenn., Sept. 17.—All of the 1904 Kitty League team here have been signed by E. C. Morrow, who controls the local franchise, for the season of 1905, with the exceptions of Collins, Willis and Smith. It seems an assured fact that Clarksville will have a pennant winning team next year and it is said to be possible at least that this city may be in the Southern League or possibly the Central.

## IN HARD

LUCK!

If you will pardon a slang expression, I have been playing in hard luck, having been one of the unfortunate victims of typhoid fever which kept me away from my place of business six weeks. Am happy to say that I am again back at the old stand in a better condition to serve you than I have been for several months. My stock of Hardware & House Furnishing Goods is full and complete, my prices are right, and all things being equal, I want a larger share of your business. I want it. I need it, and I am willing to do everything in my power to secure it. All I ask is a fair trial. Thanking you for past favors, I am, Yours Respectfully,

Jack Meador.
